

SAN PEDRO'S INNER HARBOR

LEGISLATIVE CONGRESSIONAL APPRO- PRIATION FOR WORK

The San Pedro Harbor Commission has been authorized by the House of Representatives to make a survey of the harbor and to make such improvements as may be deemed necessary.

The United Brotherhood of Railway Carpenters was in session in San Francisco last week.

The Southern Pacific is reported to have made heavy purchases of land in the Kern area.

As the result of his investigation into the charges preferred against County Clerk Albert B. Mahoney, who is accused of having violated the Purity of Elections Law, Mayor Schmidt has suspended that official.

Seven of the most desperate prisoners in the United States penitentiary on McNeil's Island, Washington, made their escape between 1 and 2 o'clock Sunday afternoon by digging a hole through the wall in one of the cells.

William H. Taft, civil governor of the Philippine Islands arrived at San Francisco Monday on the transport Great from Manila. He is a very sick man, the Philippine climate and the arduous duties he has performed having told on his constitution.

For the Inner Harbor

A majority of the members of the House Rivers and Harbors Committee favors making an appropriation for Wilmington Harbor, California, and unless Chairman Burton reverses his present position and renews his hostile demonstrations, that harbor will be put down in the River and Harbor Appropriation bill for an appropriation of \$500,000 for the commencement of work there and the purchase of a dredger. This news comes from a member of the committee who visited California last summer, and who has taken the trouble to find out how the committee stands upon the making of an appropriation for the harbor.

Randolph Quarantine

Dr. Randolph W. Hill, president of the State Board of Health went up from Los Angeles last Wednesday at the request of the County Supervisors of Kern county to look into the small-pox situation and to advise as to the best means of stamping out the disease. He met with the quarantine committee and learned what was being done, and then made a thorough examination and found everything in a state of confusion. He did not think there is any occasion for outside people to be alarmed at the prospect of contagion from Randolph.

All railroads and stage lines are prohibited from carrying passengers with small-pox.

The County Board of Health has ordered that all persons coming from the coast to the interior must be vaccinated and that all persons coming from the coast to the interior must be vaccinated and that all persons coming from the coast to the interior must be vaccinated.

The County Board of Health has ordered that all persons coming from the coast to the interior must be vaccinated and that all persons coming from the coast to the interior must be vaccinated.

News who were not married on or before June 30 next would be asked for their resignations.

It is estimated that the order will affect about twenty-five employees of the paper, and some of the number who are not matrimonially inclined are in sore distress. Others fear that they will not be able to make the satisfactory selection within the time specified. Others fear that the girl upon whom they may decide will not be favorable to the proposition, and that their position will go glimmering before they can settle upon some other maiden who is willing to leave her happy home on short notice.

Los Angeles Poultry Show

At the poultry show Saturday prizes were awarded and everybody, including directors and exhibitors, seemed pleased and contented with the results attained this year.

Mrs. A. Basley is the fortunate winner of the challenge cup awarded for the best display of any one variety of poultry. J. F. Hargrove won the five dollar gold piece given by the Los Angeles Poultry Association for the best cock, cockerel, hen and pullet. Mrs. A. Basley won the Live Stock Tribune cup, and the Riverside Poultry Association cup.

R. A. Conde was awarded the Partridge Wyandotte club special of \$5. S. M. Butler of San Bernardino received the \$10 incubator offered as a prize for the best exhibit of barred Plymouth Rocks. The Los Angeles association's annual cup was awarded J. W. England of Redlands for his exhibit, cock, cockerel, hen and pullet.

San Diego-Yuma Railroad

Work on the survey of the proposed San Diego-Yuma railroad is going ahead without interruption, and the survey party in charge of Engineer Richards has passed over the mountain and is now locating on the grade going down to the desert. The committee has decided to call for the second assessment of the popular subscription, which means that about \$12,000 has already been expended in survey work.

Gift to Montana

The Northern Pacific Company will present to the State of Montana a magnificent oil painting, which is to be hung over the grand stairway of the new capitol. The picture will be 15x10 feet in size and will be a reproduction, as near as can be, of the historic scene at Gold Creek when the last strike was driven for the Northern Pacific Railroad Company. The picture will contain portraits of President Grant, Mr. Villard, W. H. Evans, Col. Billings and other notables who were present on the occasion. In the background will be a number of Indians. The work will be painted in San Francisco by Amedee Joullion.

Right of Way

It was reported that the San Pedro and Los Angeles Railway Company had secured the right of way for a line from San Pedro to Los Angeles.

The County Board of Health has ordered that all persons coming from the coast to the interior must be vaccinated and that all persons coming from the coast to the interior must be vaccinated.

ST. LOUIS FAIR A YEAR LATE

INABILITY TO OBTAIN SATISFACTORY FOREIGN EXHIBITS

Boers Weakening—Merchants and Metric System—Rockefeller Remembers Vassar—Philippine News—General Notes.

The Ohio Senate and House met in joint session Wednesday and reflected Joseph B. Foraker to the United States Senate.

King Edward has given the royal endorsement to the belief among the public that an early declaration of peace in South Africa may be anticipated.

Four buildings each four stories high, situated in the heart of the Detroit wholesale district, collapsed Sunday evening without any apparent cause, and all that now remains is a heap of ruins.

Through the wireless telegraph system, the Kaiser Wilhelm der Grosse, of the North German Lloyd line, was for the first time trans-Atlantic trip to the eastward and a large part of the westward voyage, in almost constant communication with other vessels or the seashore. The ship was practically a floating telegraph office.

Miss Helen Gould is traversing the length of the Missouri Pacific railway and personally examining various localities and learning the needs of the working men of the Missouri Pacific system, in the hope of aiding their condition by the establishment of suitable Y. M. C. A. departments, with appropriate buildings at concentrating points for the use of employees of the system.

To Postpone St. Louis Fair

The Louisiana Purchase Exposition, which was to have been held in St. Louis in 1903, will not take place until 1904. This fact is practically conceded by ex-Gov. Francis, president of the Exposition Company, and Adolphus Busch the financial agent of the company. Since arriving in Washington and conferring with the foreign representatives, Gov. Francis and Busch have come to the conclusion that, unless the exposition be postponed for a year the exposition will not be able to secure the elaborate foreign exhibits which are desired. They find, for instance, that a great Japanese fair is to be given under government auspices in 1903, and if the exposition is postponed until 1904, everything of interest exhibited there can be brought to St. Louis the following year. It is the desire of the exposition officials that the foreign exhibits especially shall be very complete.

Merchants and Metric System

Representative Southard of Ohio.

It is about to come before a number of the chief manufacturers, merchants and others engaged in mercantile pursuits, to appear before the Coinage Committee February 6, concerning the question of the metric system of measures and weights. Heretofore Congress has secured the opinions of scientific men on this subject, but Mr. Southard holds that such a change in the entire system of weights and measures is a practical question on which the large business interests should be heard.

Rockefeller Remembers Vassar

It is reported that John D. Rockefeller has promised to double every gift made to the college before commencement day, 1902, to a sum not exceeding \$200,000. Besides lesser gifts, Vassar already owes her recitation hall and one residence hall to the generosity of Mr. Rockefeller.

Just One More Canal Route

Plans for the new ship canal will be presented before the Senate Commission on Canals by Gen. Edward W. Serrell, for the American Isthmian Canal Company, both corporations of New Jersey. This route for the proposed canal is from the Gulf of San Blas to the Pacific Ocean, behind the Pearl Islands, and is called the Mangrove route. It will be proposed that the company build the work under the supervision and protection of the government, without any cost to the United States, which will be asked to guarantee the bonds of the company.

Mine Workers Convention

Nearly one thousand members of the United Mine Workers of America have gathered at Indianapolis for the thirteenth annual convention, which began Monday. Delegates are there from twenty-four States, representing every bituminous and every anthracite coal field in the United States.

Progress in the Philippines

Gen. Chaffee will leave Manila for the island of Samar next Saturday. He will thoroughly investigate the situation there, as it is desired to stamp out the Samar insurrection during the dry season.

The transport Kilpatrick has sailed for Manila with a full passenger list, made up chiefly of recruits for the army and men of the marine corps and their officers. The 700 recruits left the Presidio last week in six companies and made an exceptionally good showing, considering the brevity of their service. The enlisted men of the marine corps numbered 100.

An important capture was made in Laguna province, Luzon, when eight men of the Eighth Infantry captured a woman insurgent, Agueda Kahabaga. She recently commanded an insurgent force of 500 men, 200 of whom carried rifles, while 300 were armed with lances. For six years past she has been leading insurgent bands against the Spaniards and the Americans.

General Chaffee, in the annual report which has just been issued, sums up the situation from the military

point of Batangas and Laguna, in south Luzon, and the islands of Samar, Mindoro and Cebu, constitute the disturbed area in which bodies of insurgents in force are to be found.

Having failed, after two years' strife in subduing the insurrection in Batangas province, which lies just south of Manila, and having satisfied himself that lenient treatment of the insurgents is productive of no good results, General J. Franklin Bell, the military commander in that province, has determined to carry on the war in the most vigorous fashion. His scheme involves reconcentration in a modified form, the application of martial law in all directions and the unflinching pursuit and punishment of the natives who act as spies and traitors to the United States.

A Woman's Awful Peril

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful stomach, liver and kidney remedy. Cures Dyspepsia, Loss of Appetite. Try it. Only 50 cents. Guaranteed. For sale by C. F. Clapp.

Opens Parliament

King Edward opened parliament Thursday with a ceremonial in all essential respects similar to that of February last. The procession to the House of Lords was of the same character as that witnessed on the occasion of the opening of the first parliament of King Edward's reign, while within the upper house were seen the same state pageantry, the same historic dresses and the same revival of ancient form.

After robing, King Edward and Queen Alexandra entered the House of Peers and occupied their thrones beneath a canopy, with the Prince and Princess of Wales of either side of them. The other members of the royal family were seated on chairs at the foot of the steps leading to the throne. The gentleman usher of the black rod, Gen. Sir Michael Biddulph, having summoned the speaker and the members of the House of Commons, His Majesty read the speech from the throne.

Saw Death Near

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn. "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma, and all throat and lung diseases. 50c at C. F. Clapp's.

Parliament and Law at Oats

The Hon. Dr. Charles Parham has given out a letter, addressed to Mayor Low, which has been adopted by the executive committee of the Society for the Prevention of Crime, of which Dr. Parham is president.

The letter says that "there is not very much to choose between a Tammany administration that has bad principles and a reform administration that has good principles, but is afraid to use them."

The letter, which is signed by Dr.

Parham and Low at Oats

Parham and Low at Oats

The letter, which is signed by Dr.

Parham and Low at Oats

The letter, which is signed by Dr.

Parham and Low at Oats

The letter, which is signed by Dr.

Parham, concludes by demanding of Mayor Low that "you, once your administration is secured with your oath, and that he summon resources at his command to the work of 'freely and resolutely suppressing open or clandestine violations of recognized statutes'."

This action, which is entirely for the prevention of crime, is construed as a breach between the reformers and the reform administration.

After American Diamonds

A discovery of an immense diamond field in the northeastern part of Persus county, Montana, has driven all the prospectors of Spotted Horse and Maiden wild with excitement. When the report reached the former place that Tiffany, the well-known New York jeweler, had pronounced the gems of first water the excitement knew no bounds, and Friday night a party of prospectors started for the Blood Creek country, where the find was made, to locate the ground.

Special Envoy to Spain

Dr. J. M. Curry has been appointed special envoy extraordinary and minister plenipotentiary to represent the President at the coming age of the King of Spain. Dr. Curry is a native of Virginia and was formerly minister to Spain.

Paper Makers to Strike

A general strike was ordered Sunday at a joint meeting of the Appleton, Kaukauna and Neenah lodges of the United Brotherhood of Paper Makers, which will result in less than three weeks in closing the twenty-five mills in the State of Wisconsin, throwing out of employment 2000 workmen and cutting off of over 370 tons a day from the supply of the paper market, unless the demands of the union for shorter hours are granted. Further than this, the movement is soon to spread through every paper-making district in the northwest.

The manufacturers will be given one or two weeks' time in which to make a reply and nothing but an immediate and unconditional granting of the demands, it is authoritatively stated, can prevent the big walkout.

Prince Henry's Visit

The latest arrangement in connection with the visit of Admiral Prince Henry of Prussia to the United States is that the prince will meet the Imperial yacht Hohenzollern at Hampton Roads and sail thence to New York.

Elaborate preparations are being made for social entertainments on board the Hohenzollern. By the emperor's special order a splendid silver service has been sent to Kiel from the royal silver treasures in the Old Schloss. Emperor William's program is that Prince Henry shall reciprocate the New York and Washington festivities with a grand banquet on board the Hohenzollern, inviting the President, the members of the Cabinet and others. The curator of the silver treasures comes to the United States to take care of the valuable wares.

Morgan Plans Ship Trust

A gigantic ship trust, to control the freight trade of the North Atlantic Ocean, is the latest scheme from the marvelous brain of J. Pierpont Morgan that is about to be realized. This mammoth enterprise contemplates the merging of the White Star, Red Star, Leyland and Atlantic Transport companies into one interest, to be connected and operated with the vast railroad properties that Mr. Morgan controls. It will probably be extended to include the Cunard, Anchor, Allan, State and Wilson lines, for, once the scheme is put into operation, the power of the combination already effected

will force transportation companies engaged in Atlantic Ocean freight transportation into the arms of that trust.

Safe He Was Sworn

"I suffered with pain from corns I could hardly walk," writes H. Robinson, Hillsborough, N. H. "but Dr. King's Arnica Balm completely cured them." Acts like magic on sprains, bruises, cuts, sores, rashes, burns, boils, itching, perfect healer of skin diseases and piles. Cure guaranteed by C. F. Clapp, 35 cent.

Commission Reports for Panama

The supplemental report of the Isthmian Canal Commission on the proposition of the Panama Canal Company to dispose of its property to the United States for \$40,000,000, was delivered to President Roosevelt Saturday. The members of the commission refuse to discuss the nature of the report and like reticence was maintained at the White House. But it was stated on excellent authority that the report unanimously recommends that the offer of the Panama Company be accepted.

Food Changed to Poison

Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Biliousness, Sick Headache, Fevers, all Liver, Kidney and Bowel troubles. Only 25c at C. F. Clapp's.

Fruit Markets and Marketing.

From a recent Fruit World it appears that at a meeting of fruit growers at Chula Vista the question was asked Mr. Chamblin of Riverside, "Why does the S. C. Fruit Exchange go into the auction markets, if it has its own agents in the markets?" That reminds me that an "Orange Grower" of Covina asked several questions last year through Fruit World, one of which implied disapproval of the practice of using the fruit auctions of eastern cities for the sale of part of our oranges.

The Covina writer was not an Exchange man and is now a member of the Spruance Fruit Co. As that company is now selling its own fruit in those auctions every week, it is safe to conclude that he now knows, as he probably knew all the time, that the auction markets are a good thing for the seller.

Spruance Fruit Co. is not alone among outside buyers in that practice. In the Fruit World daily report of 20 inst. I note among other names the following sellers at the last auctions in Boston, New York and Pittsburgh: Earl Fruit Co., Fay Fruit Co., Spruance Fruit Co., Rubidoux Fruit Co., A. Gregory, Chapmans of Fullerton, H. K. Pratt & Sons, Moulton & Greene. It is the universal practice among all who ship oranges to markets where there are fruit auctions to sell fruit thereat. That universal practice indicates that sellers have found that course for their best interests in some cases. That is the reason why the S. C. Fruit Exchange sells some of its fruit at auction, that it is best for the grower.

But what has become of the "I. O. S. method," by which the eastern buyer was to order his car of oranges f.o.b. California? For at auctions the fruit is sold not in carloads, but in twenty-box lots. Do the above-named firms make a profit above the f.o.b. price in sending their fruit to be sold in twenty-box lots at auction? If so, is it rather clear that the S. C. Fruit Exchange will put that profit in the pockets of the growers, its members, by selling their fruit in the same competitive auction markets?

According to the California Cultivator, a newspaper hostile to the S. C. Fruit Exchange holds that organization responsible for the presence in eastern markets of the "sour," "green," "spotted," "frost-bitten," inferior fruit mentioned in the reports. Let us see about it. Everybody knows that nearly all shippers send from California before Christmas fruit that is not fully colored; that all navel at New Year's, compared to their taste in late February, are not sweet; and that any fruit that meets a cold wave in transit is liable to be frosted. Hence every shipper, up to this time, no matter what his care, is sure to have had in market some fruit inferior in color, flavor and condition.

But in the auction markets, where scores of buyers see the fruit before they buy, and bid against each other to get what they severally prefer, the prices obtained show which was the inferior fruit, and the reports of such sales show who were the shippers. These reports do not show, one single day, that the S. C. Fruit Exchange has sent fruit of less value than the outside shippers.

The Covina Citrus Association declined to ship for pro-rate of some of its own fruit, which was dropping rapidly, although not well colored, because the trees had been sprayed for black scale and it was not believed that the spots which then appeared on the underside of the oranges would disappear in transit. But the owners of the green and spotted fruit were allowed to sell the same as they pleased. Two of them did sell theirs to a vigorous firm doing business in this city as buyers and shippers of oranges. They paid the price, packed the stuff and shipped it for their own account. Was the S. C. Fruit Exchange responsible?

I wish such misrepresentations would end. It is written, "Thou shalt not bear false witness." I have no authority to repeat to enemies of the Exchange, "Thou shalt not," but I feel competent to advise them, "You'd better not."

S. P. J.

EVERYBODY HAPPY.

Dry Spell Broken by Copious Rains.

The dry spell of the past two months has been broken by glorious rains and ranchers and merchants feel correspondingly elated. Saturday and Tuesday mornings light showers fell, forerunners of the heavy downpour of Thursday night and yesterday morning. It commenced raining at 11:30 o'clock Thursday night and poured continuously for four hours, one inch and thirty-seven hundredths falling.

This rain will be of incalculable benefit to the country, as vast areas of ground were already sown awaiting the moisture to start the seed. Two weeks will see the hills and pastures ankle deep with new feed.

On the mountain peaks it snowed heavily. Clouds are still hanging over the mountains and the prospects are good for heavy rains.

Electric Road.

The committee having in charge the matter of the extension of the Electric Road from San Gabriel to Pomona are doing a great deal of active work. Considerable correspondence has passed between them and Mr. Huntington in regard to the matter and although the committee as yet has nothing definite to report it is keeping in close touch with the powers that be, in railroad circles, and the citizens of Covina and adjacent localities can feel confident that their interests are being closely watched. The committee held a very profitable meeting at the home of Mrs. J. M. and Mrs. C. H. on Sunday, Jan. 19, a daughter.

Masonic Installation.

Covina Lodge, No. 334, F. & A. M., held installation ceremonies in the A. O. U. W. hall on Tuesday evening. The event was one of the best and most enjoyable in Masonic circles during the past year. In addition to the members there were present their wives and some 100 invited guests making a gathering of 160 in all.

J. L. Matthews, retiring master of the Lodge, installed the officers, assisted by Mr. E. G. Clapp as Marshal. The assembled guests were deeply interested in the impressive ceremonies.

A short program added very much to the enjoyment of the evening consisting of a recitation by Miss Emily Stetson; vocal solo: G. L. Webb; recitation, Mrs. J. D. Reed; piano solo, Miss Jesse Stauffer, which received a well merited encore; speeches by Rev. J. W. Utter, Past Master Lee, of Azusa, and others. A banquet closed the evening, the latter feature being in charge of Caterer Crenshaw.

The officers installed were as follows: Master, G. O. Dudderar; Senior Warden, J. J. Morgan; Junior Warden, J. J. Morgan; Junior Warden, B. S. Webb; Treasurer, J. D. Reed; Secretary, E. B. Carrier; Senior Deacon, Clarence Menefee; Junior Deacon, C. L. Hulee; Chaplain, William Hoegendyck; Marshal, T. F. Griswold; Stewards, D. C. Hay and W. H. Corbett; Tyler, L. D. Graham.

New Books in the Covina Library.

"Princess of the Hills," by Mrs. Burton Harrison; "Captain Ravenshaw," by Robert Nelson Stephens; "Judge Burnham's Daughters," by Pausy; "Lads Love," by S. R. Crockett; "The Potter and the Clay" by Maude Peterson; "The Garden of a Commuter's Wife," by George W. Cable; "Blue Grass and Rhododendron" by John Fox Jr.; "The Sky Pilot," Ralph Connor; "The Love of Laundry," Paul Dunbar; "The Uncalled," Paul Dunbar; "Seven Oaks," J. G. Holland; "The Maid of Maiden Lane," Amelia Barr; "Tekla," Amelia Barr; "The Rudder Grange Abroad," Frank Stockton; "Rose in Bloom," L. M. Alcott.

Ask your neighbor about that Imperial Coffee he gets at Warner & Whitell's for two bits. You will wonder how you got along without it.

GRADUATES AT STATE NORMAL

Thirty-five Students to Be Granted Diplomas Thursday. A Covina Student Among the Graduates.

Arrangements are being made for closing of the winter term of school at the Los Angeles State Normal, and Thursday morning, Jan. 30, a class of thirty-five students will graduate.

No attempt at elaborate graduation exercises is made in the middle of the year, since the faculty and students are too busy at that time to give much attention to anything outside of regular school work, but there will be an informal musical program and an address by Prof. M. L. Seymour, formerly of the Chico school. The graduation exercises will take place in the auditorium and will be attended by other students and probably relatives of the graduates.

Those who make up the class are the Misses May Burnett, Mattie Clapp, Ethel Croke, Mabel Crum, Aimee Daniels, Grace Davies, Mabel Dooner, Lottie Emery, Anna Ford, Ora Gardner, Elsie Goodhue, Grace Greene, Mabel Gunning, Jessie Henderson, Mabel Johnson, Inez Mee, Emily Monroe, Grace Murphy, Amy Noble, Maude Cleo Parker, May Laura Petray, Edith Quinn, Louise Satterlee, Harriet Sheldon, Eva Tullis, Bernice Wolfe and Myrtle James. Usually there are two or three boys to share the honors of the normal school graduating class, but this time the girls have matters in their own hands.

Births.

Mr. and Mrs. C. H. on Sunday, Jan. 19, a daughter.

To Mr. and Mrs. Noah Frantz, on Sunday, Jan. 19, a daughter.

To Mr. and Mrs. Elmer Brown, on Wednesday, Jan. 22, a daughter.

To Mr. and Mrs. H. E. Chesebro, on Friday, Jan. 24, a son.

To Mr. and Mrs. L. Waldo Ames (nee Miss Edna Sebastian), at Charlotte, N. C., on Jan. 18, a daughter.

Notice.

W. H. Matthews & Co. beg to inform the public of Covina and district that in order to still further extend their increasing business they have entered into partnership with Mr. J. C. Clutterbuck, of Covina, and that on and after Feb. 1, 1902, they will under the name of Matthews & Clutterbuck carry on the business of wholesale and retail dealers in hay, grain, feed and general farm produce. New office and store A. O. U. W. Building, warehouse and yard south Citrus avenue.

Annual Clearance Sale.

Elsewhere in our columns will be found an announcement from W. B. Broadwell, telling our readers of his Annual Clearance Sale, commencing on Monday next. This sale will be an epoch in the history of Covina. Never before have our citizens had an opportunity to get goods at these prices. Ladies read his advertisement! Every sentence will be a revelation to you. Go early in the week and if possible early in the mornings to avoid the crush of the afternoon shoppers. Broadwell is quoting not bargain but slaughter prices.

Monday Afternoon Club.

The club met on Monday Jan. 19th with Mrs. J. J. Morgan, the president, in the chair. Owing to the absence of the secretary, Mrs. L. L. Kitekin acted as secretary pro tem.

After the transaction of business, Mrs. Douglass led current events. This was followed by an interesting paper on "Salem Witchcraft," written by Mrs. Atkinson and read by Mrs. Reed.

The next meeting will be of a social nature with Mrs. Olaver as hostess. Current events will be read by Mrs. Douglass.

Mrs. Villinger has consented to tell of her trip to Alaska.

Myra M. Sturtevant,
Secretary.

Covina's Leading Grocers—BELL & OSTRANDER

Oysters

TEL. M. 14

Fruits

Bananas, Dates, Apples (Bellflower), Figs, Persimmons.

Pickles

Sweet Pickles, Pearl Onions, Eastern Dill Olives, 15c per quart.

Vegetables

MULLENDORF & SONS, Proprietors

J. S. Kuns Fruit Co.

Although this is the first year for Covina's new fruit firm it is doing business in no small way. Up to date they have shipped 22 cars of oranges receiving for the same very satisfactory returns. Mr. Kuns is in receipt of a number of letters from the trade in San Francisco and the East complimenting him on the quality of the fruit and the excellency of the pack.

Linoleum For Reading Room.

Subscriptions for this worthy object are being received very slowly. In addition to the subscriptions previously announced we are only in receipt of \$1.00 subscribed by Mrs. G. N. Atwood.

After this glorious rain let every family make a thank offering of \$1.00 towards purchasing the linoleum for the floor of the Covina Reading Room. All subscriptions sent to this office will be acknowledged in our next issue.

J. O. C.

The members of the J. O. C. met Thursday evening at the home of Misses Laura and Dena Reece. Following the business session the evening was pleasantly spent with games and music. Dainty refreshments were served in the dining room.

Headquarters for gloves, at the Corner Hardware Store.

Seed Potatoes: Early Bohee seed potatoes. Grew last year over 200 sacks to the acre. C. D. Leech, 1/2 mile south of Irwindale P. O.

Mr. Cliff Denny and wife of Howard Co., Mo., are expected to arrive tomorrow on a visit with their nephew, Dr. J. D. Reed and wife.

Mrs. A. Wilder of Oswego, N. Y., mother of Mr. and Mrs. H. E. Chesebro, has returned to California to stay. She will make her home with Mr. and Mrs. Chesebro.

J. R. Hodges returned home on Thursday evening from the Pacific Hospital, Los Angeles, where he had undergone a serious operation. He has sufficiently recovered to be able to take a little exercise each day.

Rev. Francis Lawson, of Villa Park, was the guest several days this week of his son, W. F. Lawson.

Special sale for one week of two and three burner gasoline stoves. S. M. Davis, Hardware.

Wanted: Girl to do General Housework. Apply to Mrs. J. L. Matthews, residence next Argus Office.

The infant child of Mr. and Mrs. Francisco Morales of Irwindale died on Thursday morning from pneumonia.

Prize Masquerade Ball, Covina Opera Hall, Saturday evening Feb. 8th, under the management of Ernest Richter. Excellent music. The management is a guarantee of success.

The ladies of the Episcopal Church gave a very successful oyster supper in the south room of the Cook block on Wednesday evening. Over 200 were present.

For Rent:—A convenient 8 room house, 2 rooms furnished, suitable for boarders and lodgers. For information apply to R. C. Baldrige, Warner & Whitell's Store.

Ed Brooks left this week, in company with his brother-in-law, John McInturff of Los Angeles, for Caldwell, Idaho, where he expects to engage in cattle ranching.

The wedding of Elisha B. Carrier, Esq., to Miss Edith Youngs of Berkeley, is announced to take place at the home of Miss Youngs' parents in Berkeley on Feb. 4. Miss Youngs is the daughter of Judge and Mrs. Oliver Youngs, formerly of Pomona, and a graduate of Pomona High School. The prospective groom is a bright young lawyer and the present attorney of the city of Covina.

Mr. and Mrs. J. Baughman of Irwindale were badly bruised and shaken by being thrown from a wagon on the hill road, leading from the Shouse residence on the Hollenbeck ranch, on Friday of last week. They were returning from the Hollenbeck ranch with a load of hay when at a dangerous point in the road the break refused to act, and the horses finding it impossible to hold the wagon, rushed wildly down the hill, upsetting the load and throwing the occupants out. Considering the character of the road their escape without fatal injuries is almost miraculous.

SAN PEDRO'S INNER HARBOR

LIBERAL CONGRESSIONAL APPROPRIATION FOR WORK

The Randsburg Quarantine — Wireless Telegraph Stations on the Coast — San Diego-Yuma Railroad — Etc.

The United Brotherhood of Railway Employees was in session in San Francisco last week.

The Southern Pacific is reported to have made heavy purchases of lands in the Kern fields.

As the result of his investigation into the charges preferred against County Clerk Albert B. Mahony, who is accused of having violated the Purity of Elections Law, Mayor Schmitz has suspended that official.

Eleven of the most desperate prisoners in the United States penitentiary on McNeil's Island, Washington, made their escape between 1 and 2 o'clock Sunday afternoon by digging a hole through the wall in one of the cells.

William H. Taft, civil governor of the Philippine Islands arrived at San Francisco Monday on the transport Grant from Manila. He is a very sick man, the Philippine climate and the arduous duties he has performed having told on his constitution.

For the Inner Harbor

A majority of the members of the House Rivers and Harbors Committee favors making an appropriation for Wilmington Harbor, California, and unless Chairman Burton reverses his present position and renews his hostile demonstrations, that harbor will be put down in the River and Harbor Appropriation bill for an appropriation of \$250,000 for the commencement of work there and the purchase of a dredger. This news comes from a member of the committee who visited California last summer, and who has taken the trouble to find out how the committee stands upon the making of an appropriation for the harbor.

Randsburg Quarantine

Dr. Randolph W. Hill, president of the State Board of Health went up from Los Angeles last Wednesday at the request of the County Supervisors of Kern county to look into the smallpox situation and to advise as to the best means of stamping out the disease. He met with the quarantine committee and learned what was being done, and the general conditions. He has made a thorough examination and found smallpox in mild form. He does not think there is any occasion for outside people to be alarmed at the prospect of contagion from Randsburg.

All railroads and stage lines are prohibited from carrying any person away from Randsburg. Before leaving Dr. Hill placed a competent man in charge as his representative to supervise the work being done by the county and citizens of Randsburg, who will stay until the disease is thoroughly eradicated. The quarantine will be rigidly enforced under his supervision and Dr. Hill thinks the disease will be stamped out in two or three months.

Wireless Telegraphy for Pacific Coast

H. Schmidt, who says he represents an eastern company, was in San Diego making an investigation with a view to establishing a wireless telegraph station on top of Point Loma at the entrance of the harbor. He says it is the intention of his company to erect four stations on the Pacific Coast, one in San Diego, one at Los Angeles, a third at San Francisco, and the fourth somewhere on Puget Sound. Mr. Schmidt made a trip to Point Loma, and said he considers it an ideal place for such a station. According to him, his business is simply to examine the different locations indicated and report to his company on their advantages and disadvantages for a system of wireless telegraphy along the Pacific Coast.

LOS ANGELES NEWS

Our Regular Interesting Budget from the City of the Angels

A new cold storage plant is projected to coincide with the existing town. Nearly one million dollars' worth of real estate changed hands last week.

At the coliseum bowling alleys on February 10 will be held a tournament to decide the championship of Southern California.

A fire in the Los Angeles wholesale district last Wednesday morning resulted in \$200,000 damage. The principal firms effected were Newmark Bros., spice millers and extract manufacturers, and the Hayden & Lewis leather company.

Mayor Snyder has a stack of nearly two hundred letters, which were received in answer to the fake want advertisements inserted in the Denver Times and Post by some crank or enemy. Letters have been received by the mayor addressed to "Snyder, Hammel & Elton," from nearly every State and Territory west of the Rocky Mountains. During the last week from five to ten letters have been received by nearly every mail.

Must Marry or Lose Jobs

There is a consternation among the employees of the Desert News, the official organ of the Mormon Church, Salt Lake, as the result of a matrimonial edict that has recently been issued. The News, in addition to employing the usual force necessitated by afternoon publication, operates a bindery, job office and a book store, which employ, all told, a hundred men. The edict is the result of a conference between President Joseph F. Smith, the present head of the church, and the manager of the News, at which it was agreed that all male employees of the

News who were not married on or before June 30 next would be asked for their resignations.

It is estimated that the order will affect about twenty-five employees of the paper, and some of the number who are not matrimonially inclined are in sore distress. Others fear that they will not be able to make the satisfactory selection within the time specified. Others fear that the girl upon whom they may decide will not be favorable to the proposition, and that their position will go glimmering before they can settle upon some other maiden who is willing to leave her happy home on short notice.

Los Angeles Poultry Show

At the poultry show Saturday prizes were awarded and everybody, including directors and exhibitors, seemed pleased and contented with the results attained this year.

Mrs. A. Basley is the fortunate winner of the challenge cup awarded for the best display of any one variety of poultry. J. F. Hargrove won the five dollar gold piece given by the Los Angeles Poultry Association for the best cock, cockerel, hen and pullet. Mrs. A. Basley won the Live Stock Tribune cup, and the Riverside Fanciers' challenge cup.

R. A. Conde was awarded the Partridge Wyandotte club special of \$5. E. M. Butler of San Bernardino received the \$10 incubator offered as a prize for the best exhibit of barred Plymouth Rocks. The Los Angeles association's annual cup was awarded J. W. England of Redlands for his exhibit, cock, cockerel, hen and pullet.

San Diego-Yuma Railroad

Work on the survey of the proposed San Diego-Yuma railroad is going ahead without interruption, and the survey party in charge of Engineer Richards has passed over the mountain and is now locating on the grade going down to the desert. The committee has decided to call for the second assessment of the popular subscription, which means that about \$12,000 has already been expended in survey work.

Gift to Montana

The Northern Pacific Company will present to the State of Montana a magnificent oil painting, which is to be hung over the grand stairway of the new capitol.

The picture will be 15x10 feet in size and will be a reproduction, as near as can be, of the historic scene at Gold Creek when the last spike was driven for the Northern Pacific Railroad Company. The picture will contain portraits of President Grant, Mr. Villard, W. H. Evans, Col. Billings and other notables who were present on the occasion. In the background will be a number of Indians. The work will be painted in San Francisco by Amadeo Joullion.

Right of Way

It was reported that the San Pedro road has a right of way over the West Side Rapid Transit Company's franchise.

This latter company is a street-car concern which has the right to run either electric or steam cars. It commenced operations about ten years ago, and has never paid. Its owners have simply been holding on for just such an opportunity as is now said to have presented itself.

Boers Weakening

The Amsterdam correspondent of the Daily Mail says it is definitely known that the recent visit to London of the Dutch Premier, Dr. Kuyper, resulted directly from Mr. Kruger, the Boer delegates having been persuaded officially to waive their claim for independence pending approval by the Boers who are fighting.

Uncle Sam's Free Land

That section of forest reserve lands near Indio that is to be thrown open for settlement will be open for filing on April 1. These lands are officially known as townships 8, 9 and 10 S., range 3 E. S. B. M. There is a little good land and much poor, but as it is practically given away there'll be a big rush. The U. S. Land Office in Los Angeles will be the center of interest for a little while.

Earthquake Kills Hundreds

One of the most terrible catastrophes in the history of the State of Guerrero, Mexico, occurred Friday afternoon, when an extremely violent earthquake shock was felt at Chilpancingo, causing a great loss of life and injuring many persons. Reports received indicate that probably 300 persons were killed and as many injured. The State Capitol, the parish church and many business houses and residences are in ruins, and there is much suffering as a result of the awful seismic disturbance.

Later reports indicate that the number of deaths from the earthquake at Chilpancingo has been greatly exaggerated, and that the loss of life will not exceed twenty persons.

Bound for Bulgarian Frontier

Garigoldo, the chief dragoman of the American legation in Constantinople, and the Rev. Dr. Peet, secretary of the American mission, have left Serree for the Bulgarian frontier, taking the ransom with them in the hope of soon securing the release of Miss Stone and Miss Tishka.

Holding Wheat for Better Prices

With 40,000,000 bushels of wheat in the twenty counties surrounding Wichita, Kansas, the mills of that city are now idle. The farmers will not sell a pound of their wheat at any price and are determined to keep it for six weeks longer, or until the prospects of the growing crops are better determined. Practically all the mills in Southern Kansas are idle. Offers of 77 cents were made in vain. The Secretary of Agriculture announces that California has been selected by his department for extended experiments in the growing of leaf and filler tobacco.

ST. LOUIS FAIR A YEAR LATE

INABILITY TO OBTAIN SATISFACTORY FOREIGN EXHIBITS

Boers Weakening — Merchants and Metric System — Rockefeller Remembers Vassar — Philippine News — General Notes.

The Ohio Senate and House met in joint session Wednesday and re-elected Joseph B. Foraker to the United States Senate.

King Edward has given the royal endorsement to the belief among the public that an early declaration of peace in South Africa may be anticipated.

Four buildings each four stories high, situated in the heart of the Detroit wholesale district, collapsed Sunday evening without any apparent cause, and all that now remains is a heap of ruins.

Through the wireless telegraph system, the Kaiser Wilhelm der Grasse, of the North German Lloyd line, was for the last trans-Atlantic trip to the eastward and a large part of the westward voyage, in almost constant communication with other vessels or the seashore. The ship was practically a floating telegraph office.

Miss Helen Gould is traversing the length of the Missouri Pacific railway and personally examining various localities and learning the needs of the working men of the Missouri Pacific system, in the hope of aiding their condition by the establishment of suitable Y. M. C. A. departments, with appropriate buildings at concentrating points for the use of employees of the system.

To Postpone St. Louis Fair

The Louisiana Purchase Exposition, which was to have been held in St. Louis in 1903, will not take place until 1904. This fact is practically conceded by ex-Gov. Francis, president of the Exposition Company, and Adolphus Busch the financial agent of the company. Since arriving in Washington and conferring with the foreign representatives, Gov. Francis and Busch have come to the conclusion that, unless the exposition be postponed for a year the exposition will not be able to secure the elaborate foreign exhibits which are desired. They find, for instance, that a great Japanese fair is to be given under government auspices in 1903, and if the exposition is postponed until 1904, everything of interest exhibited there can be brought to St. Louis the following year. It is the desire of the exposition officials that the foreign exhibits especially shall be very complete.

Merchants and Metric System

Representative Southard of Ohio, Chicago, is about to send in a bill to a number of the chief manufacturers, merchants and others engaged in mercantile pursuits, to appear before the Coinage Committee February 6, concerning the question of the metric system of measures and weights. Heretofore Congress has secured the opinions of scientific men on this subject, but Mr. Southard holds that such a change in the entire system of weights and measures is a practical question on which the large business interests should be heard.

Rockefeller Remembers Vassar

It is reported that John D. Rockefeller has promised to double every gift made to the college before commencement day, 1902, to a sum not exceeding \$200,000. Besides lesser gifts, Vassar already owes her recitation hall and one residence hall to the generosity of Mr. Rockefeller.

Just One More Canal Route

Plans for the new ship canal will be presented before the Senate Commission on Canals by Gen. Edward W. Serrell, for the American Isthmian Canal Company, both corporations of New Jersey. This route for the proposed canal is from the Gulf of San Blas to the Pacific Ocean, behind the Pearl Islands, and is called the Manigua route. It will be proposed that the company build the work under the supervision and protection of the government, without any cost to the United States, which will be asked to guarantee the bonds of the company.

Mine Workers Convention

Nearly one thousand members of the United Mine Workers of America have gathered at Indianapolis for the biennial annual convention, which began Monday. Delegates are there from twenty-four States, representing every bituminous and every anthracite coal field in the United States.

Progress in the Philippines

Gen. Chaffee will leave Manila for the island of Samar next Saturday. He will thoroughly investigate the situation there, as it is desired to stamp out the Samar insurrection during the dry season.

The transport Kilpatrick has sailed for Manila with a full passenger list, made up chiefly of recruits for the army and men of the marine corps and their officers. The 700 recruits left the Presidio last week in six companies and made an exceptionally good showing, considering the brevity of their service. The enlisted men of the marine corps numbered 100.

An important capture was made in Laguna province, Luzon, when eight men of the Eighth infantry captured a woman insurgent, Agneta Kahabagan. She recently commanded an insurgent force of some 200 men, of whom carried rifles while 500 were armed with lances. For six years past she has been leading insurgent bands against the Spaniards and the Americans. General Chaffee, in the annual report which has just been issued, sums up the situation from the military

point of Batangas and Laguna, in south Luzon, and the islands of Samar, Mindoro and Cebu, constitute the disturbed area in which battles of insurgents in force are to be found.

Having failed, after two years' strife in subduing the insurrection in Batangas province, which lies just south of Manila, and having satisfied himself that lenient treatment of the insurgents is productive of no good results, General J. Franklin Bell, the military commander in that province, has determined to carry on the war in the most vigorous fashion. His scheme involves reconcentration in a modified form, the application of martial law in all directions and the unsparing pursuit and punishment of the natives who act as spies and traitors to the United States.

A Woman's Awful Peril

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite. Try it. Only 50 cts. Guaranteed. For sale by C. F. Clapp.

Opens Parliament

King Edward opened parliament Thursday with a ceremonial in all essential respects similar to that of February last. The procession to the House of Lords was of the same character as that witnessed on the occasion of the opening of the first parliament of King Edward's reign, while within the upper house were seen the same state pageantry, the same historic dresses and the same revival of ancient form.

After robing, King Edward and Queen Alexandra entered the House of Peers and occupied their thrones beneath a canopy, with the Prince and Princess of Wales of either side of them. The other members of the royal family were seated on chairs at the foot of the steps leading to the throne. The gentleman usher of the black rod, Gen. Sir Michael Biddulph, having summoned the speaker and the members of the House of Commons, His Majesty read the speech from the throne.

Saw Death Near

"It often made my heart ache, writes L. C. Overstreet, of Elgin, Tenn., to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma, and all throat and lung diseases. 50c at G. F. Clapp's, Los Angeles.

Parkhurst and Low at Outs

The Rev. Dr. Charles Parkhurst has given out a letter, addressed to Mayor Low, which has been adopted by the executive committee of the Society for the Prevention of Crime, of which Dr. Parkhurst is president.

The letter says that "there is not very much to choose between a Tammany administration that has bad principles and a reform administration that has good principles, but is afraid to use them."

The letter, which is signed by Dr.

Repairing Neatly Done

Never thought of such a sign for a medicine did you? Well, it's a good sign for Scott's Emulsion. The body has to be repaired like other things and Scott's Emulsion is the medicine that does it.

These poor bodies wear out from worry, from over-work, from disease. They get thin and weak. Some of the new ones are not well made—and all of the old ones are racked from long usage.

Scott's Emulsion fixes all kinds. It does the work both inside and out. It makes soft bones hard, thin blood red, weak lungs strong, hollow places full. Only the best materials are used in the patching and the patches don't show through the new glow of health.

No one has to wait his turn. You can do it yourself—you and the bottle.

"This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle."

Send for free sample. SCOTT & BOWNE, 425 Broadway, New York. Get and \$1.00 all druggists.

Parkhurst, concludes by demanding of Mayor Low that "you brace your administration in accord with your oath," and that he summon resources at his command to the work of "frankly and resolutely suppressing open or clandestine violations of recognized statutes."

This action, which is entirely for the prevention of crime, is construed as a breach between the reformers and the reform administration.

After American Diamonds

A discovery of an immense diamond field in the northeastern part of Fergus county, Montana, has driven all the prospectors of Spotted Horse and Maiden wild with excitement. When the report reached the former place that Tiffany, the well-known New York jeweler, had pronounced the gems of first water the excitement knew no bounds, and Friday night a party of prospectors started for the Blood Creek country, where the find was made, to locate the ground.

Special Envoy to Spain

Dr. J. M. Curry has been appointed special envoy extraordinary and minister plenipotentiary to represent the President at the coming age of the King of Spain. Dr. Curry is a native of Virginia and was formerly minister to Spain.

Paper Makers to Strike

A general strike was ordered Sunday at a joint meeting of the Appleton, Kaukauna and Neenah lodges of the United Brotherhood of Paper Makers, which will result in less than three weeks in closing the twenty-five mills in the State of Wisconsin, throwing out of employment 3000 workmen and cutting off of over 370 tons a day from the supply of the paper market, unless the demands of the union for shorter hours are granted. Further than this, the movement is soon to spread through every paper-making district in the northwest.

The manufacturers will be given one or two weeks' time in which to make a reply and nothing but an immediate and unconditional granting of the demands, it is authoritatively stated, can prevent the big walkout.

Prince Henry's Visit

The latest arrangement in connection with the visit of Admiral Prince Henry of Prussia to the United States is that the prince will meet the imperial yacht Hohenzollern at Hampton Roads and sail thence to New York.

Elaborate preparations are being made for social entertainments on board the Hohenzollern. By the emperor's special order a splendid silver service has been sent to Kiel from the royal silver treasures in the Old Schloss. Emperor William's program is that Prince Henry shall reciprocate the New York and Washington festivities with a grand banquet on board the Hohenzollern, inviting the President, the members of the Cabinet and others. The curator of the silver treasures comes to the United States to take care of the valuable wares.

Morgan Plans Ship Trust

A gigantic ship trust, to control the freight trade of the North Atlantic Ocean, is the latest scheme from the marvelous brain of J. Pierpont Morgan that is about to be realized. This mammoth enterprise contemplates the merging of the White Star, Red Star, Leyland and Atlantic Transport companies into one interest, to be connected and operated with the vast railroad properties that Mr. Morgan controls. It will probably be extended to include the Cunard, Anchor, Allan, State and Wilson lines, for, once the scheme is put into operation, the power of the combination already effected

will force independent companies engaged in Anglo-American freight transportation into line or out of business.

Says He Was Tortured

"I suffered such pain from corns I could hardly walk," writes H. Robinson, Hillsborough, Ill., "but Bucklen's Arnica Salve completely cured them." Acts like magic on sprains, bruises, cuts, sores, scalds, burns, boils, ulcers. Perfect healer of skin diseases and piles. Cure guaranteed by C. F. Clapp, 25 cents.

Commission Reports for Panama

The supplemental report of the Isthmian Canal Commission on the proposition of the Panama Canal Company to dispose of its property to the United States for \$40,000,000, was delivered to President Roosevelt Saturday. The members of the commission refuse to discuss the nature of the report and like reticence was maintained at the White House. But it was stated on excellent authority that the report unanimously recommends that the offer of the Panama Company be accepted.

Food Changed to Poison

Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Biliousness, Sick Headache, Fevers, all Liver, Kidney and Bowel troubles. Only 25c at C. F. Clapp's.

COVINA, Jan. 25.

A cable received on the 10th states that California navel oranges sold in London at from 12s to 15s per box.—California Fruit Grower.

Late frosts in Florida are reported as having done no harm to orange trees. Many citrus trees are being put out over the southern part of the State.—California Fruit Grower.

Another innovation typical of the strenuous life of Chicago is providing telephones at the tables at the restaurants where business men dine. They cannot stop to eat without doing business. Three cafes of the city are already using them.

According to Judge York advancement of the new women has placed her in such a position that if she is healthy and can get a job she can secure no divorce from a lazy husband, but must support him. A man seldom marries an invalid and hereafter he never will be too lazy to hunt a situation for his wife.

On Friday evening, Jan. 17, Mr. C. W. Fleming, the popular representative of the American Type Foundry in Los Angeles, entertained on behalf of his firm, 130 publishers and employing printers of Southern California and Arizona to a dinner at the Woman's Club House, Figueroa street, Los Angeles. The occasion was in honor of the 196th birthday anniversary of Benjamin Franklin. Host Fleming proved himself a royal entertainer and the event will long be remembered by the fraternity. Speeches were made by Messrs. Joseph D. Lynch, of Los Angeles, Sidney M. Haskell, of Pomona, Fred L. Alles, R. H. Chapman, B. R. Baumgardt, Maj. Ben C. Truman, S. T. Clover, of Los Angeles, J. P. Baumgartner, of Pasadena.

La grippe coughs often continue for months and sometimes lead to fatal results after the patient is supposed to have passed the danger point. Foley's Honey and Tar affords positive protection and security from these coughs. C. F. Clapp.

STOPS PAIN

Athens, Tenn., Jan. 27, 1901.
Ever since the first appearance of my menses they were very irregular and I suffered with great pain in my hips, back, stomach and legs, with terrible bearing down pains in the abdomen. During the past month I have been taking Wine of Cardui and the old Black-Draught, and I passed the monthly period without pain for the first time in years.
NANNIE DAVIS.

What is life worth to a woman suffering like Nannie Davis suffered? Yet there are women in thousands of homes to-day who are bearing those terrible menstrual pains in silence. If you are one of these we want to say that this same

WINE OF CARDUI

will bring you permanent relief. Console yourself with the knowledge that 1,000,000 women have been completely cured by Wine of Cardui. These women suffered from leucorrhoea, irregular menses, headache, backache, and bearing down pains. Wine of Cardui will stop all these aches and pains for you. Purchase a \$1.00 bottle of Wine of Cardui to-day and take it in the privacy of your home.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

A Tissue of Lies.

Prof. N. A. Jacobs, who is recently from Oregon, and now engaged in teaching school near Corona, writes a letter to the Medford (Oregon) Mail under date of Jan. 10, of this year, descriptive, he says, of Southern California. The letter is so rank that it can only be characterized as a tissue of lies from beginning to end. Just listen to his wail, "The fogs are disagreeable and surely not conducive to health." * * * People born and raised here suffer with catarrh and consumption. * * * The doctors down this way grow rich, funny isn't it, since this is such a healthy country? * * * Citrus fruit grows here "busted" more well-to-do people in the southern belt than anything else. A man needs more than a big bank account to raise oranges. He should own and control at least half a dozen banks. * * * Another very serious objection to this section of the state is the periodical dust storms, which are 'Holy terrors.' Again listen to this, "On the 13th ult. there was a severe cold snap which resulted in a big damage to the lemon and orange crop. * * * The morning following the freeze the valley was full of smoke. It took a pile of money to make that smoke and perhaps some of the orchardists put more money into straw, coal, etc., that night than they will get out of their entire crop this season."

We admit that the thermometer went dangerously near the danger point that night, and that many smudged their orchards, but this can be done at a cost of \$1.05 per acre, and these same oranges which the writer speaks of as damaged are netting the growers today from \$1.00 to \$1.25 a box with an average yield of

200 boxes to the acre. This is as near as he came to the truth in any of his ridiculous statements. Southern California is not a paradise but its climate conditions and social advantages are equalled by few and excelled by none.

If this man, N. A. Jacobs, is so dissatisfied with existing conditions, why does he remain here and draw down public money as a teacher in the public schools?

Recognition for Clark.

President Roosevelt seems to have solved the problem of who should represent the navy at the coronation of King Edward. Instead of intensifying the fight between the friends of Schley and Sampson by naming either of them, Admiral Dewey, Schley's champion, or any other warm partisan he has chosen Clark, the hero of the Oregon. It is said that the President believes that Clark was not sufficiently rewarded for his war services by being advanced six numbers in grade. Clark's advancement was based on the work of the Oregon in the battle with Cervera's ships, but the President regards the run of the vessel from San Francisco to the West Indies as worthy of reward also, and even a greater reward than that received by Clark for his conduct in battle. He has therefore concluded, it is reported, to ask Congress to create an additional number on the grade of rear-admirals for the special benefit of Captain Clark, who will be advanced to that rank from his present position, No. 8 on the list of captains.

Clark seems to have largely dropped out of sight since the Spanish war was over and there has been a general feeling that he has not received the recognition he deserved. The 13,000 mile run of the Oregon was without parallel in naval history, and every patriotic American will be glad to see her gallant captain represent the navy at the coronation or have any other honor and emolument the President can work out for him.—Riverside Press.

There is always a delightful breeziness about the matter contained in the magazine issued by the Sunday Herald of Los Angeles. And there is such a great variety presented in this magazine, and the articles are of such a high standard that we often wonder how it can be put together and sold for 5 cents.

A Hugging Society Formed.

Bellefontaine, O., January 12.—At North Greenfield, Logan county, a hugging society has been organized with B. C. Bates as president. The object of the organization is to swell the treasury of the little church that exists in their midst, and the following scale of prices is advertised for their first meeting: "Girls under sixteen, 15 cents for a hug of two minutes, or ten cents for a short squeeze. From sixteen to twenty years, fifty cents. From twenty to twenty-five years, seventy-five cents. Schoolma'ams, forty cents. Another man's wife, \$1. Old maids, three cents each and no time limit."

See the new Covina Stationery, 25c. a box, at Clapp's.

For Sale:—A good cow just fresh. Apply to Archie Vincent.

Remember in Peerless Mocha and Java coffee you get the value of your money. Bell & Ostrander.

Mrs. J. S. Eckles has been quite seriously sick during the past week with a painful boil on her face.

Mr. and Mrs. Charles Castle of Los Angeles were the guests the latter part of last week of the latter's uncle and aunt, Mr. and Mrs. J. H. Coolman.

You get a 35c coffee for two bits when you buy our Imperial blend. We have never had a customer quit it.

Warner & Whitel.

OLIVES for sale. Now ready for pickling. By the ton or small lots. Mission and Columella the finest pickling varieties, on small trees and can be easily picked by women or children. Wm. Bowring, Charter Oak.

Three lines of goods we are proud of: our Magnolia butter, our Premier and Imperial blends of coffee and our Maple Drips table syrup. These goods are not duplicated any where and those who use the most of them are loudest in their praise. Try them and see what you have missed so long. Warner & Whitel.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail." says James Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly ward off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. Sold by C. F. Clapp.

He Dropped the Stone.

"Ye'd better stop throwin' stones if you 'spect to be alderman in our ward!" This was the somewhat startling warning which a N. Y. Tribune reporter heard a tiny mite of a girl offer to a boy much larger than herself.

"Oh, p'raps you're goin' to vote me out, Missy!" was the taunt he flung back.

"Me'n't other girls will, if you don't drop your stones," she replied; and, wonderful to tell, the lad dropped the stone, although he had evidently intended to shy it at the passing street-car.

Wondering at the potent secret, the reporter inquired into the motive, and found that the lad was actually in nomination for office in the "Gill School City," and that the school-girls as well as the school-boys had a vote.

Delinquent Notice.

Office of the Covina Irrigating Company, principal place of business Covina, Rowland Township, County of Los Angeles, State of California. There are delinquent on the following described stock on account of assessment No. 28, levied December 4th, 1901, the several amounts set opposite the names of the respective shareholders as follows:

First Annual Clearance Sale

Commencing Monday, January 27th, and Continuing One Week.

In offering to you our First Annual Clearance Sale we have in view reducing our stock to make room for Spring Purchases, and also to advertise our business. Goods that will not sell are not worth what they cost, but what we can get for them. Our loss is your gain. Our space will not admit of quoting prices on all goods reduced. We have gone through our entire stock and have made such reductions as will make our annual clearance sale worthy of your careful attention. Our Shoe Stock is in charge of an experienced shoe man. We will fit your feet and the following prices will fit your purse:

Silks

A New York importer to whom we gave an order for silks sent us full pieces. We are stuck, so offer you guaranteed black Taffeta, 75c quality at..... **.49c**

A nice, lustrous, pure silk. Other specials in the same lot. Silks and Velvets.

W. B. BROADWELL, COVINA

The Covina Argus

J. L. BATTINER, Publisher.

COVINA, Los Angeles Co., Cal.

What relation is the roke overcoat to the Mother Hubbard?

The name Seth is having a liberal run at New York christenings.

The world is full of people who would do wonderful things if they could only get started.

"Faint heart never won fair lady," but it undoubtedly has often saved itself a lot of trouble.

The cruiser Albany is said to be a menace to health. Admiral Cervera will testify that the Brooklyn was also anti-health.

Oklahoma will cheerfully accept either single or double statehood. The only kind she objects to is deferred statehood.

Rural mail carriers resign to the number of 150 a month. Thus has our marvelous American progress developed an office that has to hunt the man.

An idiot has been cured by surgery in New York. Now let surgery try its hand on some of those Anglo-maniacs who swallow the ends of their canes.

Of all the definitions of what constitutes a wise man that of a Chicago editor hits it off the best. A wise man, says this editor, "is one who knows what not to say."

A British firm has secured the contract for constructing an electric railway in London. The circumstance is considered so remarkable that all the English papers are crowding about it.

The cause of the death of Li Hung Chang illustrates the scripture, "He that controllth his own spirit is greater than he that taketh a city." Chang died from a fit of anger. Although he could control millions of men and of money he could not control himself.

Khaki-dyed tentage is the rule in the army now. No more white tents will be purchased. White is too conspicuous. The poetry of the service, in peace and in war, has made much of the snowy canvas homes of the men; but war is not carried on with even the incidental purpose of furnishing material to the birds.

Of the sixty Cuban school teachers who have begun a two years' course at the New York State Normal School at Newpaltz, Principal Doremus Scudder declares he never had so eager, interesting and congenial a group of pupils. Besides book-learning and the English language, their instruction includes cooking, keeping a house clean and other domestic arts; weaving, carpentry and such practical industries as will grow out of their home environment; gymnastics to correct their weak muscles and "short wind," and the vital art of amusement for their leisure hours. One of the girls, in a fleeting moment of discouragement over all she had to learn, recently exclaimed: "Our brothers who gave their lives for Cuba did not begin to suffer as we who are living for Cuba."

In the old days of the Hudson Bay Company, trade with the Indians was conducted wholly by barter. The standard of value was a beaver-skin, and guns, knives, powder, lead and blankets were exchanged for furs without recourse to coin. In time, however, the trade produced its own currency—a stick or tally known as the "made-beaver." This was issued by the company and accepted for the value of one beaver-skin at any post. Some flavor of the old romance will attach to the new Canadian gold coins to be known as the beaver, the half-beaver and the double-beaver. They will be the counterpart in value of our eagle, half-eagle and double eagle, the beaver being the "national bird" of Canada as the eagle is of the United States. It is safe to say that interest in these new coins will not be confined to people who care for romance.

While European engineers discourse concerning the redemption of the Sahara desert the process of the redemption of arid lands in the United States is being practically carried out. An irrigation company is rescuing about a million acres of desert land in southwestern Arizona, southeastern California and northern Lower California. This desert land needs only water to make it fit for cultivation. Since June of this year hundreds of families have been brought to this district by the irrigation company which is prepared to water the vast sun baked area. During the present season crops have matured on 1,500 acres and in a short time over 50,000 acres will be ready for the man with the hoe. Within three years it is estimated the fertile land will be increased to 500,000 acres, providing a livelihood for thousands of settlers. Already the population of this once-desert land has been increased from five voters to one thousand. The larger problem of irrigation must doubtless be solved by government action. The demand for more land is growing into a great chorus of pleas and it must reach Washington. Meantime private enterprise is working on a smaller scale in a very successful way. The desert is to blossom as the rose.

Various theories are entertained by people who have no children as to when children should be spanked, how they

should be spanked and when they should not be spanked. Almost any opinion as to how often the neighbor's children should be spanked, but when it comes to his own children he wanders about in a hazy atmosphere of doubt, seeking advice from all the high-dome thinkers who have made a study of children in the abstract and who have a large assortment of theories regarding their government. They read the addresses delivered at mothers' congresses—for every mothers' congress is almost certain to have two or three mothers in it—and they listen to the pedagogical and sociological professors expound their theories concerning the proclivities and rationalizations of the juvenile mind. But children, unfortunately, cannot be studied in the abstract; they are decidedly concrete. One must get "in touch" with them in the concrete way in order to handle them and understand them. Besides, the theories of those who study them at a safe distance are conflicting. One authority says they may be spanked until they reach the age of 12, another declares they should not be spanked at all. At last the situation is cleared by a judicial ruling on spanking. Judge Tutthill, who presides over the Juvenile Court in Chicago, places the spanking age at 10 years. After a child is 10 years old, says the judge, spanking has no effect. Notwithstanding the generalization of the learned judge, it is probably a fact that the "spanking age" depends upon the child, and the judge might have added that in most cases the parents should be spanked and not the child.

Things are moving along in the educational world. Even the higher institutions of learning are making what appears to be a strenuous effort to catch up with the procession. It appears to be dawning upon them that ignorance of spelling and inability to recite the multiplication table are not always the hallmarks of genius or the open sesame to scholarly distinction. At the Northwestern University, Evanston, Ill., the students have stopped grubbing for Greek roots and are digging up the little green spelling books. They are compelled to go away back and sit down with the elementals of an English education because of a ruling of the faculty that no student will be allowed to graduate from the institution who spells yield "yeald," or shadow "shad-dow." The boy who spells villain "villian" may get a hundred in chemistry, but as spelling is a fundamental process in the art of communicating thought the university believes it will be more useful to a young man in the battle of life than knowing the formula of hydro-zincite. Of course this will be regarded as a very old-fashioned proceeding on the part of the institution at Evanston. It is not exactly in line with the "new education," which lays very little stress upon the "three R's," claiming that "readin', ritin' and 'rithmetic" may now be regarded as the non-essentials of education. But a condition confronted the university, not a theory. Most of the students admitted to the institution come from high schools and academies. Their inability to spell the commonest words in the English language made some of their manuscripts unintelligible. When a young man is writing about a wonderful feat and spells it "feet" how is the professor to know what he is driving at? The fact is, we will have to go back very close to the little country schoolhouse in some of our educational ideas. Not all the young men who are attending the colleges will be able to hire stenographers and typewriters to do their spelling for them. Moreover, who is to do the spelling for the stenographers and typewriters?

A Bengal Tiger's Flytrap.
A Bengal tiger at the Philadelphia zoo one afternoon recently astonished his keepers by catching flies in a manner which told of a reasoning almost human. It was a warm day and the big tiger was lazily lying in the open air in the little garden upon which his cage opens in summer. Beside him was a puddle of muddy water, made by a recent rain. Mr. Tiger glanced about him for amusement, but could find none. He looked at the muddy pond a while, and then watched the flies which buzzed about him. Evidently he isn't a lover of flies, for it is very apparent from what followed that he was planning some means to rid himself of the little pests. Finally he put his forepaws in the puddle and rubbed them in the bottom until they were covered with a black, sticky mud. Then he threw himself down and stretched out his paws. The flies would no sooner settle than they found themselves stuck tight in the muddy paws. When a great number of the flies had thus been caught Mr. Tiger would rub his paws along the ground, crushing the life out of the little insects. This done, he would look extremely satisfied, prepare again his old trap and stretch out for more prey.

Fireman Barred by Customs Law.
According to a Vienna correspondent a fire recently broke out at Hermanns-reuth, an Austrian village near the Bavarian frontier. A Bavarian fire brigade which was stationed only three miles away hastened to the rescue, but the Austrian custom-house authorities refused to allow the fire engines to pass the frontier without paying the usual tax on imported machinery. The Bavarian firemen naturally turned back and half the village was burned down before the nearest Austrian fire brigade could reach the scene.

Difficult Digestion

That is dyspepsia. It makes life miserable. Its sufferers eat not because they want to, but simply because they must.

They know they are irritable and fretful, but they cannot be otherwise.

They complain of a bad taste in the mouth, a tenderness at the pit of the stomach, an uneasy feeling of puffiness, headache, heartburn and what not.

The effectual remedy, proved by permanent cures of thousands of severe cases, is

Hood's Sarsaparilla

Hood's Pills are the best cathartic.

Mrs. Gatterson—You will come to dinner anyway, Mr. Tuttle, will you not? Though I am afraid there will not be any interesting people present. Tuttle (gallantly)—What difference does that make? One is always sure of a good square meal at your house. —Brooklyn Life.

Lame back makes a young man feel old. Wizard Oil makes an old man feel young. See your druggist.

"My dear," said the poet, sternly, "I've just sold a love song, but—"

"But what?"

"Oh, nothing. I was about to say that I wouldn't buy bacon and greens of self-rising flour with the money; but—you know best."—Atlanta Constitution.

EVERYBODY DELIGHTED.

Newbro's Herculic Destroyers the Dandruff Germ Permanently and Cures Baldness.

Quinine and rum and a whole lot of other things are pleasant to rub on the scalp after washing it free of dandruff, but not one preparation of the general run cures dandruff and falling hair. It is necessary to kill that germ, to be permanently cured of dandruff, and to stop falling hair. Newbro's Herculic will positively destroy that germ, so that there can be no more dandruff, and so that the hair will grow luxuriantly. "Destroy the cause, and you remove the effect."

HOW'S THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Props., Toledo, O.

We, the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

West & Truax, Wholesale Druggists, Toledo, O.

Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c per bottle. Sold by all Druggists. Testimonials free. Hall's Family Pills are the best.

Nell—But you must never mention what I have told you.

Bess—Why, was it a secret?

Nell—Oh, no, but—

Bess—Then it isn't worth repeating.

—Chicago News.

Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—

Like Bogies Like. driven from the surface to break out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted in early

The Sin of the Parents. life, for it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S. S. S. is the only antidote for this peculiar virus, the only remedy known that can overcome it and drive it out of the blood, and it does this so thoroughly and effectually that there is never a return of the disease to embarrass or humiliate you afterwards.

SSS cures Contagious Blood Poison in any and all stages; contains no mineral to break down your constitution; it is purely vegetable and the only blood purifier known that cleanses the blood and at the same time builds up the general health.

Our little book on contagious blood poison is the most complete and instructive ever issued; it not only tells all about this disease, but also how to cure yourself at home. It is free and should be in the hands of everyone seeking a cure. Send for it.

STOP, == THINK,

== ACT! ==

THERE are thousands of people in Southern California today who have money to invest and who are looking for investments.

There are other thousands who are not, strictly speaking, looking for investments, but who would be glad to put a little money where it would do the most good.

The attention of both classes is called particularly to the rapid development now in progress in the settlement of 500,000 acres of land under the Imperial Canal System in the eastern portion of San Diego County.

This settlement is no boom proposition. It is founded on the largest and most fertile tract of irrigable land to be found in arid America.

The Imperial Canal System is what its name indicates—the most abundant supply of water that can be used for irrigation purposes in America.

Not only is the water abundant, but it is cheap.

Experience Shows that 500,000 acres of such land, when under cultivation will support a population of from 150,000 upwards.

Such a population must support and maintain at least one city of metropolitan proportions, and several smaller cities of less magnitude—from 5000 to 10,000 people each.

This is no dream. Look over Southern California and see what has been done. What has been done must be done again under similar conditions.

The Imperial Land Company has platted three town sites:

Imperial, Paringa and Calexico

One of these towns will become a large city. All of them will become cities. A judicious investment in any one of them will return manifold profits.

The policy of the Imperial Land Company has been to give early investors a chance to make big money. This is a wise business policy. That policy was applied to the sale of water rights. Prices of water rights were advanced only because it became a necessity, as the land was being taken more rapidly than the water could be delivered.

The same policy is adopted in connection with the sale of town property.

We want to interest thousands of people financially in the Imperial Settlements, because the more are interested the better it is for the investors as well as for the proprietors of the water system and the town sites.

In the very near future all the towns mentioned above will become railroad towns.

The towns are laid out systematically, and the Imperial country is being developed systematically.

These facts have been accentuated by the gratuitous publication of hundreds of columns of complimentary accounts of this great enterprise in the leading journals and magazines of the East, and in nearly all the papers of Southern California. We have several scrap books full of these endorsements.

In reference to vacant land under Imperial Water Company No. 1, of which there is yet quite an acreage, we would refer the reader to Oakley-Paulin Co., Douglas Block, Los Angeles, Cal.

IN FIELD OF HUSBANDRY

TIMELY TOPICS OF INTEREST TO
FARMER AND ORCHARDIST

Potatoes in Europe — Citrus Fruits in New York — Overproduction Impossible — Extending Walnut Groves — Dry Rot in Olives — Rise of Alkali

Potatoes in Europe

A striking feature of the eastern market is the importation of potatoes from Europe in considerable quantities. Prices abroad are low, and as ocean freights are not high, shipments can safely pay a small duty of 25 cents per barrel and find a profitable market, says the Chicago Farm and Home, and adds that many dealers in large quantities profess to be afraid of carrying large stocks, owing to the abnormally high prices, as they anticipate slump. Cold weather in the northwest has interfered with shipments and caused a rise in prices, especially for Wisconsin and Michigan stocks. Boston is well supplied with Arrostok tubers, and in fact these are finding their way to New York City in liberal quantities. Early California potatoes will be in great demand at good prices.

Citrus Fruits in New York

New York arrivals of California oranges are light and good fruit is in excellent demand, with a rising market. Lemons arriving are largely frosted and are hard to dispose of. California growers make a great mistake in marketing frost-bitten fruit. Good lemons are in demand.

Grit Always Needed

H. S. Babcock of Providence, R. I., a successful poultryman whose views carry weight, insists that the most successful poultrymen supply their fowls with grit at all seasons of the year. The essentials of a good grit are that it should be hard, broken to the right size, and have irregular edges. Oyster shells, while of value, are too soft to make the best grit. Granite and flint stone meet the essential requirements. It is probably cheaper for most men to buy than to manufacture it.

A little reflection will lead one to see the truth—and a very important truth—of what Mr. Babcock says. The vigor of a growing fowl and the egg-producing capacity of the mature hen, must in the very nature of things, depend constantly upon the ease with which the feed is prepared for digestion and assimilation.

Overproduction Impossible

Poultry raisers need not worry about overproduction of poultry products, says the Farmers' Review. It will never come to this nation. Poultry and poultry products are a great boon to the people of this age of adulteration of food products. The packers are even rubbing our beef, mutton and pork with preservatives, boracic acid and the like. Even our fish are under suspicion, and it is asserted that all oysters eaten away from the seaboard have been saturated with chemical preservatives. Verily, our stomachs are put to a very severe test, whether with meats of canned goods. But the egg and the live fowl cannot be tampered with. The best preservative is life, and so we always know that our poultry is free from preservatives, at least if we buy our fowls and dress them ourselves. The people, more and more, are turning against food products that are suspected of being embalmed. They will more and more depend upon things that are absolutely beyond suspicion. Cold storage fowls will never have the place in the popular regard that the fresh dressed fowls have. There is great room for development in the business of poultry raising. Every item of information on how to get our poultry and eggs to the consumers in a perfectly pure state is of immense value, for if the consumer can know his eggs are fresh the demand will increase. The people will before long find themselves shut up in eggs, poultry, fresh fruits and vegetables, unless we have some radical legislation in the interest of pure foods.

Extending the Walnut Groves

A tract of seventy-five acres near Santa Monica is to be planted to walnut this season. Five walnut growers of Riverside have formed a company known as the Rancho del Mar Company, and have purchased for \$12,000 this piece of land and will engage in a business they are well qualified to carry on successfully. The incorporators are T. L. Gooch, George Gooch, Dr. H. L. Coffman and wife and Mrs. C. A. Coffman. Only the soft-shell variety of walnuts will be planted.

It is evident these experienced growers do not fear the walnut disease, which has caused so much alarm in some portions of Los Angeles and Orange counties, for they not only engage a further investment, but plant of the most susceptible varieties to the ravages of bacteriosis. This disease rarely attacks the trees in extreme youth, and never the nursery plants, and it is hoped that by the time this new tract and all late plantations are old enough to bear, an efficient remedy may be found for the suppression of the walnut malady. It will soon be time to spray the walnut trees. It should be done with the Bordeaux mixture, just before the new growth starts, in which the wintered-over bacteria seem to find fertile soil.

In a few instances spraying has been tried with fair success, and if the theory is correct which claims that this disease is carried in the air by birds, etc., a general campaign against the infection would minimize the damage and finally stamp out the disease.—Los Angeles Times.

Dry Rot in Olives

I notice a new olive disease at Glendale. About four years ago some notice was made of this disease, but it seemed to subside somewhat, and little is known of it by the public. As far as I can determine this disease is confined to the Manzanilla and Nevadillo varieties—the Glendale grower stating that it has never appeared in the fruit

of his Mission trees. It comes in the form of a black spot in the pulp of the fruit affecting it near the pit, and not showing up on the outside even in badly infected drupes. It is caused by bacteria, so the pathologists say, and it is well to have a name for it, especially when the evidence shows that the origin of the malady is correctly named.

Some of the growers ate to attack this dry rot by spraying with Bordeaux mixture, and will also graft their old trees to Mission, while awaiting the results of spraying. No method can reach the disease after the fruit is set, but treatment about the time of spring growth is a reasonable remedy. On the Glendale trees a peculiar exudation is apparent, both from foliage and fruit. It is a wax-like texture and as white as snow. This is clearly of fungus origin. Whether it is connected with the dry rot as a cause or an effect no one is able to tell; at any rate it is interesting and worthy of investigation.—J. W. Jeffries in Los Angeles Times.

Reid is Acceptable

The appointment of Whitelaw Reid as special ambassador to represent the United States at the coronation of King Edward has been received with much satisfaction in official and unofficial circles in London. The Globe says:

"The selection is a very happy one. The name of Mr. Cleveland was originally suggested, but we are glad President Roosevelt did not adopt the suggestion. We cannot quite forget his Venezuelan message to Congress."

The New Postmaster-General

In the presence of the President and his Cabinet, the entire Wisconsin delegation in Congress, Gov. Durban of Indiana, Senator Hanna and a number of other friends, Henry C. Payne was sworn in as Postmaster-General Wednesday morning in the Cabinet room at the White House. The oath of office was administered by Chief Justice Fuller. The retiring Postmaster-General, Charles Emory Smith, also was present, as well as Mrs. Roosevelt and Mrs. Payne, wife of the new member of the President's family.

OUR SOUTHERN NEIGHBORS

Fighting Continuing All Along the Line in South America

Gen. Matos, the Venezuelan revolutionary leader, is master of the sea for President Castro's fleet does not dare to attack the Libertador. The government troops, however, watch the coasts so well that the landing of arms and ammunition is nearly impossible. The only important successful landing took place January 9, near Tucuman, where much ammunition and Gen. Riera were safely debarked.

The impression which prevails is that the revolution is not progressing. The difficulties encountered in the attempts made to pass arms and ammunition through the government lines render the success of Gen. Matos problematical.

News of a serious mistake in which forces of the government fought another body of government soldiers, thinking that it was composed of Colombian revolutionists, has been brought to Colon by the Colombian warship General Pinzon. The mistake happened in the vicinity of Dibulio, near Rio Facha, and it resulted in eighteen being killed and sixty-three men wounded.

Gen. Alban has, after several changes of plans, appropriated the South American Steamship Company's steamer Lantoro, on which three guns will be mounted. She has a speed of twelve to fourteen knots.

The steamer Chucuito, recently purchased from the Pacific Steam and Navigation Company by the Colombia government, will mount one gun. Her speed is estimated at sixteen knots.

The Colombian government fleet, therefore, is now larger and faster than the enemy's fleet.

According to the latest advices from Venezuela, the revolutionary force under General Codeno has twice defeated government troops in the state of Carabobo.

A new insurrection has been started near Carupana under the leadership of General Vasquez. Generals Batalla and Loreto Lima have taken up arms against Castro in the state of Zamora.

The Venezuelan revolutionary steamship Libertador, formerly the Ban Righ, has made two successful landings of arms and ammunition and is moving around the coast of Puerto Cabello in full view of a government gunboat, which remained inactive.

It is reported that the revolutionary troops under General Ducharme have been defeated by a government force.

A naval battle, which began at 6 o'clock Monday morning was fought in the harbor of Panama.

The revolutionary fleet consisted of the steamers Padilla, Darien and Galcan, and their purpose was to force a landing off Saconia.

The government ships were the Chilean line steamer Lautaro, the Pacific Steam Navigation Company's steamer Chilento and the Panama Canal Company's steamer Boyaca. The first named steamer was seized by General Alban and the other two had been chartered by the Colombian government.

The revolutionary gunboat Padilla surprised the Lautaro at the opening of the light and began shooting at close range. Many men on board the Lautaro were killed.

A fire broke out on the Lautaro and later the crew of the Philadelphia went to her assistance and attempted to put out the fire. While they were thus engaged the Lautaro sank. It is reported that the Lautaro crew rebelled and that the firing of the vessel was an act of treason.

Gen. Carlos Alban, the military commander of the district and the governor of Panama, was killed during the fighting. His death is deeply deplored, for Gen. Alban was beloved by his soldiers and enjoyed the esteem of the community.

It is asserted that the death of the Colombian leader may have the effect of bringing to the government side large numbers of men anxious to avenge his loss.

GLENDORA.

Mr. and Mrs. D. Keer of Grundy Center, Iowa, and Mr. and Mrs. G. A. Bureliff of Iowa, are guests at the home of Harry Rogers.

Miss Rose Brossman, of Naperville, is the guest of her aunt, Mrs. Henry Netzeley.

Miss Ruth Gaylord, of Pasadena, is visiting her friend Miss Winnifred Wood.

Miss May Tongier, Field Secretary of the W. C. T. U., will lecture at the M. E. Church, Glendora, Sunday evening, Jan. 26th.

Mr. T. E. West, check clerk at the Southern Pacific depot, Los Angeles is visiting his brothers J. J. and C. J. West.

Rev. T. Miller, of Los Angeles, will lecture on the "Old Boy" at the M. E. Church Wednesday evening, Jan. 29.

Mr. Phil Thompson, of Los Angeles visited friends in Glendora Wednesday.

Mr. Thornton Truesdale is dangerously ill at the home of his brother in Glendora.

From Irwindale

Mr. and Mrs. J. Baughman, who were severely hurt in a runaway accident on the Hollenbeck ranch, are improving slowly.

Mr. Frank Elledge is building on his property west of the post office.

Mrs. J. D. Black returned Monday from Whittier, accompanied by her cousin, Miss Cruise of San Francisco.

Mrs. G. T. Brown's sister, Mrs. Gordon, and family left Monday for their home in Belmont, New York.

Mrs. Pike, accompanied by her daughter, has come here to join her son who has been here for a time. They will live on the Briggs' ranch.

Miss Kicker of Los Angeles visited Mrs. Teling and family the first of the week.

O. M. Baughman is building a dwelling house near the post office.

Quite a number of Mrs. Frank Hostettler's friends from here attended her 35th wedding anniversary in Azusa last Tuesday.

Mr. Homer Hostettler is on the sick list this week.

Mr. C. Heath went to Pomona Friday to have another operation performed on his hand.

Church Notes

The revival meetings at the M. E. Church are growing in interest and are expected to continue during the coming week.

The W. C. T. U. will hold its regular meeting on Tuesday afternoon at the Covina M. E. Church.

Notice.

All parties knowing themselves to be indebted to me for furnishing must settle the same at once. Pay such amounts into the office of Lowry & Lawson, W. Badillo Street, or to the First National Bank. W. R. LOWRY.

Off to Mexico.

W. Dibble returns to Mexico again today where he and some Los Angeles associates have secured a large tract of land about 45 miles from Tampico and will engage in the lumber and cattle business. Their lands are heavily timbered. Many improvements are in progress in Tampico as following description of that part will show.

Tampico is situated on the Panuco river, seven miles from the gulf of Mexico, at the southern extremity of the state of Tamaulipas, in the Republic of Mexico.

The Panuco river affords a splendid land locked harbor, having a width of 1500 feet and a depth of thirty feet in front of the Custom House and wharves at Tampico, which enables the large ocean steamers to arrive and depart without difficulty.

The following is a list of recent improvements made by the general government and others, now being constructed, which will give some idea of the importance of Tampico as a port of entry.

The cost of jetties at the mouth of the Panuco river was \$500,000, by which the depth of the water at the bar was increased from ten to thirty feet.

The construction of a Custom House at a cost of \$300,000, Mexican money.

The construction of a new steel wharf 2800 feet in length at a cost of \$200,000, now under construction, which will be completed within eight months.

A contract has recently been entered into between the General Government and an American company for the purpose of building a water-works system, sewerage and the repaving of all the streets of Tampico, at a cost of \$300,000.

On the first of September, 1901, work was commenced on the construction of the Tuxpan canal, which connects with Lake Tamiahua and which will open up transportation between Tampico and the town Tuxpan, situated 100 miles to the south, and a large productive country adjacent thereto. All of the trade of this district has in the past been carried on by means of lighters over the bar to ocean going vessels, from the port of Tuxpan, which was very expensive, making all classes of production in that district unprofitable. With the completion of this canal, this district will have cheap transportation to the port of Tampico.

The following statement shows the traffic through the two largest gulf ports of entry, during the first three months of the current fiscal year.

Imports: Vera Cruz, \$4,479,142; Tampico, \$1,764,967. Exports: Veracruz, \$5,164,954; Tampico, \$10,511,544. Totals: Vera Cruz, \$9,644,098; Tampico, \$12,276,511.

THE CATTLE INDUSTRY

The exportation of cattle from this port to Cuba and Yucatan for the past fiscal year was about 75,000 head, and the number exported to the United States from Northern Mexico 77,000 head. The cattle industry in this district, for the past three years, has been exceedingly profitable; but the exportation of cattle to the Island of Cuba is now on the decrease, as that island is becoming well supplied and the inhabitants are raising their own cattle, therefore the time is near at hand when the cattle growers of this district must look elsewhere for a market for their cattle.

See the oil burner in operation at Casey's Hardware. The cost of cooking and heating reduced to a minimum.

LADIES MONDAY AFTERNOON CLUB. Meets every Monday afternoon in the A.O.U.W. Hall at 3 o'clock. Mrs. J. J. Morgan, Pres. Mrs. D. G. Jennings, Sec.

A Good Recommendation.

"I have noticed that the sale on Chamberlain's Stomach & Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, and you are certain to be delighted with the prompt relief which they afford. For Sale by C. F. Clapp.

REMARKABLE CURE OF COUGH.

A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I felt sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine my boy would not be on earth today. Joel Demont, Inwood, Iowa. For sale by C. F. Clapp.
